

SPACE: BARRATT HOMES, BUCKINGHAM

CLIENT:

Barratt Homes

LOCATION:

Windsor Park, Buckingham

SERVICES:

Architecture

“A range of twelve energy-efficient homes for one of the nation’s most trusted home builders.”

Located on the fringes of the Buckinghamshire countryside, Windsor Park is perfectly placed to attract young professionals and growing families.

As part of a larger long-term development programme, JWA provided a range of services for Barratt Homes including planning drawings and site plans for this fast track 48 plot development featuring a range of stylish two, three and four bedroom homes..

In addition, we provided a full construction package consisting of 12 different house types in a range of terrace, semi-detached and detached homes, as well as eight garage types.

Each design incorporated the latest energy saving technology with bespoke floor plans and finishes in keeping with the locality and planning requirements.

These homes are already proving to be a very popular choice for buyers. Construction began in May 2012, with the first phase now complete.
